

SAVE THE EGG

The students are required to design a stable structure using the given materials in a way such that it can accommodate an egg and the egg should not break when this structure would be thrown from the third floor.

RULES:

1. Maximum number of participants : 2
2. Maximum number of teams : 50 (First come first serve basis)
3. Time limit: 2 hours
4. All the materials will be provided on the spot.
5. The organizing team reserves the right to change or modify any of the rules.

JUDGING CRITERIA: Judgment will be done on the basis of aesthetics, Idea, detail, skill and the neatness of the structure. Creativity counts!
